Tervetuloa! Ja kiitos . . .

- ISC
- Organizers
 - EOS
 - European Softwood Association
 - Finnish Forest Industries
- Contributors of market forecasts and statements
- Statistics and forecast preparation
 - Review Team, esp. Jyri Hietala & Juha-Matti Laitinen
 - Alex McCusker, UNECE/FAO Timber Section Statistician

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Topics

- I. Framework for market developments
- II. Sawn softwood market developments
- III. Roundwood markets
- IV. Conclusions
- V. Discussion

I. Overview of market developments

International Softwood Conference
Helsinki, Finland, 16-17 October 2008

Market developments, 2007–2008

- “US forest products market crash impacts UNECE region”
- Green building systems: market driver and constraint
- Consumption of wood and paper fell in UNECE region in 2007 – first time in 6 years
- Oil price instability pumps wood, but supply problem

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Market developments, 2007–2008

- Certified forest area over 300 million ha
- Some European market sectors exceeded N. America for the first time in 2007
 - Production of sawn softwood
 - Consumption of panels
 - Consumption of paper and paperboard
- China's trade with UNECE region increases

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Market developments, 2007–2008

- European wood products prices rose in early 2007, but then fell
- N. American prices fell dramatically in 2007 and 2008
- Roundwood and paper product prices remained high
- Russian export taxes rose in 2008; scheduled to escalate in 2009

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Photos: Metsäliitto and Vapo

Economic developments, 2007–2008

- World economy experienced fifth year of real growth above 3% in 2007
- Emerging economies growing over twice as fast as the advanced economies in 2007
- Globally inflation was moderate, with the average rate below 3.0% for the last six years

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Sub-prime crisis in US

- Financial market crisis started to develop in second half of 2007 in US. Why?
 - Inadequate regulation of financial industry
 - Poor risk management by private sector
 - Bursting residential property bubble
 - Home prices (and values) sink
 - Loans dry up
 - Construction slows dramatically

Photos: Metsäliitto and Vapo

International Softwood Conference

International Softwood Conference
Helsinki, Finland, 16-17 October 2008

Sub-prime crisis in US

- Causes of the crisis (continued)
 - Defaults of sub-prime mortgages
 - Loans made to low-income households with poor credit history
 - Variable interest rates, which increased (too) rapidly
 - Extremely low down payments, minimal equity
 - Collapse in value and marketability of US mortgage-backed securities
 - European banks' purchases of bundled US assets became losses

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Sub-prime crisis spreads

- Spread throughout the world through trade and financial market linkages
- Accelerated in September & October 2008
- World growth is expected to decline in 2008 to 3.7% from 4.9% in 2007
- Continued decline to 3.0% in 2009 (IMF, Oct. '08)
- Increasing risk of recessions, especially with economic downturns in autumn 2008
- Also reduction in growth of world trade; on volume basis growth is forecast to fall to 5.6% in 2008, from 6.8% in 2007

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Economic framework – US

- Collapse in US single family housing starts
 - 15% fall in 2006, 29% fall in 2007
 - Production of sawn softwood fell 10.6% in 2007 and for the first time, European production has overtaken that of North American
 - Sawnwood production, price collapse
- Weak demand, weak prices and excess capacity remain major concerns

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Economic framework – Europe

- Growth in euro zone was 2.6% in 2007 and forecast 2.1% in 2008
- Concerns in housing markets
 - Housing prices falling
 - Banking sector hit by financial crisis

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Economic framework – global

- Global economic crisis escalates, October 2008
 - Stock markets shed massive value
 - Massive cash infusions by individual governments
 - Concerted efforts by governments
 - Governments take over banks

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Market drivers

- Green building movement
- Public procurement policies
- Wood energy targets
- Certified forest products
- Corporate responsibility
- Russia export taxes
- China's surging trade

II. Sawn softwood developments

International Softwood Conference
Helsinki, Finland, 16-17 October 2008

Forest Products Annual Market Review: sawn softwood findings

- US housing market collapse caused 25% of N.A. industry capacity to curtail or close
- In 2007 and mid-2008, European prices fluctuated and then declined
- N.A. prices sunk – lowest since 1991
 - Maximum export tax for Canadian exporters
- Russian exports of sawn softwood continued climbing in 2007, by nearly 9%

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Forest Products Annual Market Review: sawn softwood findings

- N.A. sawmillers kept mills running, sometimes below costs:
 - To maintain long-term contracts and relationships with customers
 - To ensure log supply contracts in the future
 - To keep trained and skilled labour force
 - To generate some revenues to meet fixed costs, e.g. bank loans

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Forest Products Annual Market Review: sawn softwood findings

- After profitable 2006, European sawmill revenues declined in mid-2007 and into mid-2008
- Mid-2008: oversupply in most markets as sawnwood intended for Japan and the US were redirected to Europe or the Middle East

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Forest Products Annual Market Review: sawn softwood findings

- German exporters maintained a US market share in 2007
 - Honored commitments of long-term contracts
 - Maintained customer relations
 - Flexibility in pricing, in part due to
 - Low-cost logs from winter storms
 - Increased capacity – decline domestic consumption = export (+35% early 2008, 6.7% forecast [total exports, not only US])

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Photos: Metsäliitto and Vapo

Forest Products Annual Market Review: sawn softwood findings

- Russian export taxes on roundwood are changing trade patterns
 - €50 per m³ in January 2009
 - Does tax significantly boost value-added production in Russia?
 - Impact on log importers: Finland, China, Baltic Countries, etc.
 - New trade channels...Serbia?

IV. Conclusions

International Softwood Conference
Helsinki, Finland, 16-17 October 2008

Conclusions

- Global economic crisis unfolding
- Forecasting uncertainty
- Markets dramatically down in N. America
- Markets weakening in Europe
- Markets forecast to strengthen in Russia

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Conclusions. Effects of scheduled Russian export tax increases

- Will tax go into effect in January 2009?
- Can domestic processing of logs increase to consume previously exported logs?
- Can countries dependent on Russian logs find alternative sources?
- What happens to Russian communities dependent on log exports?
- What happens to companies dependent on log imports?

Photos: Metsäliitto and Vapo

International Softwood Conference
Helsinki, Finland, 16–17 October 2008

Conclusions

- US housing slump forecast to bottom out in 2009 (NAHB in early 2008, i.e. before severe economic crisis)
- Optimism in many forecasts for 2009

Photos: Metsäliitto and Vapo
