Tropical Timber Market Report
Volume 18 Number 4, 16th – 28th February 2014

ITTO
The ITTO Tropical Timber Market (TTM) Report, an output of the ITTO Market Information Service (MIS), is published in English every two weeks with the aim of improving transparency in the international tropical timber market. Its contents do not necessarily reflect the views or policies of ITTO. News may be reprinted without charge provided that the ITTO TTM Report is credited. A copy of the publication should be sent to ti@itto.int

Top story
Labelling system for domestic furniture

The Japan Furniture Industry Development Association has established a new ‘labelling’ system for domestically made furniture. The aim is to generate higher sales of locally made furniture.

To meet the criteria for labelling manufacturers must be implementing a raw material chain of custody system such as that of FSC, PEFC and SGEC, or have a supplier’s certificate verifying the legality of the wood raw material.
