SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FORESTY PRODUCTS INTEREST GROUP

LFPDC Publications :: Woods of Louisiana ::

The PDF-format E-Book: "Woods of Louisiana" (published in 1998) can be opened by clicking the link: [Woods of Louisiana](#)

It is imperative to understand the properties of a particular wood species before selecting it for any application. The woods of Louisiana vary considerably in density and hardness, so the workability of species in terms of machining, nailing, gluing and carving will also vary. This publication is designed as a reference to assist in learning about the properties of our native Louisiana woods. Use it to make a more informed choice for your wood working project, no matter how big or small. We hope you'll find it useful.
