If you are in a rock band or have a noisy teenager, this may be for you. Rich

Colorful Hexagonal Wall Tiles Made From Sound-Absorbing “Wood Wool”

<http://inhabitat.com/colorful-hexagonal-wall-tiles-made-from-sound-absorbing-wood-wool/>

[VIEW SLIDESHOW](#)

These colorful hexagonal wall tiles by [Form Us With Love](#) strike a brilliant balance between sustainable materials, economy and functionality. The [modular tiles](#) are available in a variety of different colors and can be assembled in various patterns to create a gorgeous mural on your wall. The tiles are made from wood fibers mixed with cement and water, and they have sound-absorbing properties that can actually improve the acoustics of a room.

Richard P. Vlosky, Ph.D.
