

26 April 2018

**SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FORESTY PRODUCTS INTEREST GROUP**

I don't know if I ever shared this set of photos with the group. I took these while on a tour as part of the 2018 Mass Timber Conference coordinated by the Forest Business Network. It was a great tour and a great conference! The crazy colored building cost \$200/sq. ft. to build. The paint job was \$2 Million @ \$1,000/gallon of paint. The walls slope out and the roof/ceilings slope toward the center. Some potential tenants got vertigo. Windows all over the place so you can't tell how many storeys it is. NOT your typical Tall Wood Building. Only in Portland, Oregon, right?
