

4 July 2018

SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FOREST PRODUCTS INTEREST GROUP

BiofuelsDigest

The world's most widely read biofuels daily

[On Energy Independence Day, India, China surge as leaders in clean fuels](#)

July 3, 2018 | [Jim Lane](#)

ABPDU is run out of the Berkeley Lab, and is the technology center behind the technology centers, if you will, of companies such as Kiverdi, Sylvatex, Perfect Day, Lygos, Microvi, and Greenlight Biosciences to name just a few.

They've been operational since 2012, and specific among the services are Bio-process Prototyping & Optimization, Concept Development & Validation, Scale-up Integration & Demonstration, plus Funding & Grant Proposals Support.

This illuminating presentation was given by ABPDU director Todd Pray at ABLC 2018 in Washington DC- [and its ready for you now at The Digest online.](#)
