SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FORESTY PRODUCTS INTEREST GROUP

[Growing better trees by design](#)

Maritime Innovation Limited — J.D. Irving Limited's (JDI) research lab in Sussex, N.B. — is one of only three places in the world that applies genetic science to grow softwood trees to sustain healthy forests and related forest products jobs. That means growing taller, straighter and more disease-resistant trees faster than they're being harvested. » [Read more...](#)
