SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FORESTY PRODUCTS INTEREST GROUP

If you are interested in mass timber, CLT, or engineered wood products in general, this site will be useful. I stumbled upon it.

CLT Knowledge Database

<https://masstimberdatabase.umn.edu/?search=&sort=&sort=lastExplored%2Cdesc>

About

Welcome to the CLT database. This library contains links to information related to Cross Laminated Timber, including peer-reviewed journal articles, conference papers and presentations, standards, reports, news notes, projects, manufacturers, suppliers, and much more. This database is targeted to anyone interested in learning about or adopting CLT, including architects, engineers, contractors, developers, industry, government, and the public in general. We strive to maintain this database current; however if you think some information is missing, please let us know at cltdatabase@umn.edu.

The work upon which this publication is based was funded in whole or in part through a grant awarded by the Wood Education and Resource Center, Northeastern Area State and Private Forestry, U.S. Forest Service. University of Minnesota is an equal opportunity provider.

Richard P. Vlosky, Ph.D.

Director, Louisiana Forest Products Development Center

Crosby Land & Resources Endowed Professor of Forest Sector Business Development

Room 227, School of Renewable Natural Resources

Louisiana State University, Baton Rouge, LA 70803
